...ONE ARE KILLED AND MANY INJURED

...w York Elevated Train Jumps the Track on Curve.

...ONER HOLDS AN INQUEST

...Switch Causes Train to Leave ...ck and Plunge Into Street Below. ...Flagman Attacked by Crowd—The ...Switchman Was Responsible.

...York, Sept. 12.—Nine persons ...killed and more than thirty in... ...by the derailment of an elevat... ...railroad train at Fifty-third street ...Sixth avenue today.

...train was a southbound Ninth ...avenue local and should have con... ...on the straight track, instead ...easily switched to the curve by ...Sixth avenue trains proceeded ...Fifty-third street from Ninth aven... ...a Sixth avenue train had just ...passed and the switch to the curve ...was open. Owing to this open switch ...first car of the Ninth avenue train ...took the switch, but barely staying on ...the rails and turned into Fifty-third ...street, instead of going down Ninth ...avenue. The switchman, it is alleged, ...when he saw the blunder, turned the ...switch back again as if to send the ...train on the straight track down Ninth ...avenue. As soon as this was done ...the train was wrecked. The second ...car got around the turn, but the third ...car, owing to the switch being changed ...was thrown off the track. It fell ...into the street, turning completely ...over and landing upside down.

The fourth car and fifth car also ...left the rails, but but did not fall to ...the street. The Fourth car struck ...with terrific force against the build... ...at the southwest corner of Ninth ...avenue and rested against the fire es... ...capes. This building is occupied in ...part by a Mrs. Crow, whose family ...were at breakfast. The passengers ...in the fourth and fifth cars were able ...to save themselves and get to the ...street in safety by climbing through ...the windows of Mrs. Crow's apart... ...ments, from the fire escapes against ...which the fourth car rested.

Policeman Edward Moran who was ...injured, was standing beneath the ...train the accident happened. He ...leaped when he heard the crash over ...head and escaped death.

"I turned around and saw the car ...coming to the street," he said. "It ...fell with a crash of its forward end. ...The people were jammed forward, ...holding to the straps and mixed up to... ...gether.

"When the sides broke out they ...were scattered all over the street. ...These were the lucky ones. Those who ...could not get out were the worst in... ...jured.

"I saw there was awful work ahead, ...so I ran to Fifty-first street and ...turned in an alarm. Then I sent in ...a call for all the ambulances and ...asked for police reserves. As I ran ...back I yelled for help from wagons of ...all sorts. When I got back to the ...street, it was strewn with injured ...people. We lifted them into grocery ...wagons, trucks, anything handy and ...proceeded with them to the Roosevelt ...hospital. Many of them were women. ...They had fainted and it looked as if ...nearly all were dead.

"When the firemen came they began ...dragging people out of the car. The ...further down they got into the mass ...of humanity the slower the work be... ...came, and more serious were the ...wounds of those rescued. Finally, axes ...had to be used to get the people from ...under the wreckage. At that stage ...they began to pull out the dead.

"The excitement among those in the ...derailed cars on the structure as they ...realized what had happened became in... ...tense."

In the forward car the men seeing ...the motorman was responsible for the ...wreck attacked him and tried to beat ...him. He was dragged from his seat ...but he shouted for fair play and con... ...vinced the crowd that it was the ...switchman who was responsible. The ...bodies of the dead in the wreck were taken to the Forty-seventh street police station and each was followed to the station house door by a crowd. In front of the station house the street was packed from building to building, and it was all that a squad of policement placed at the door could do to keep the throng from forcing its way inside. The dead were laid out in a row on the floor and as fast as persons who could convince the police that they could make possible identifications reached the station house, they were admitted.

As the news of the disaster spread the crowd in front of the station house increased until there was danger of a fatal crush and extra police were ordered out to aid in clearing the street.

The head which was found detached from the body was that of Solomon Nugast. Both head and body were found on the tracks, but separated by several yards.

Cornelius A. Jackinson, the switchman who was blamed for causing the disaster, was arrested at his home in West Twenty-second street. He maintained that he had set the switch right.

AMERICAN CONSCIENCE ASLEEP.

Declares Chicago Divine But He Looks Forward to Grand Awakening.

Chicago, Sept. 12.—The Rev. John Balcom Shaw, in his sermon at the Second Presbyterian church last night said in part:

"For years the American conscience seemed to be sleeping its last sleep. Graft had flourished until we had become a nation of grafters. Corporations had grown to lawless and merciless as to cease to be cautious.

"But six months ago with the suddenness of a meteor's flash, like a bolt out of a clear sky, a new situation appeared. First came the cry of tainted money which was so loud and so widespread as to warn corrupt and unscrupulous men to arm reformers with weapons they could never before carry and to push the cause of truth and honesty miles ahead. Following this was the Equitable expose which has dealt corporation trickery a blow from which it will not soon recover.

"What all this promises for the work of Christian church can scarcely be estimated. We are in the midst of an ethical revival, and if the church will only relate itself rightly to the movement, it may pave the way for the spiritual revival for which it has long been eagerly looking."

THE CHOLERA SITUATION.

Sixteen New Cases in Berlin—News From Other Towns.

Berlin, Sept. 12.—An official bullet. in issued today says that 16 cases of cholera and six deaths were reported from noon Sept. 9 to noon Sept. 10, and 15 cases and 6 deaths from Sept. 10 to noon today, making the total of 58 deaths and 170 cases.

Bromberg, Sept. 12.—Seven new cases of cholera were reported today in six villages in this administrative district. Two convicts have died of the disease at Gnesen. The totals in this district which cholera cases have been numerous than in any other section, are only 33 cases and 15 deaths.

Marienwerder, West Prussia, Sept. 12.—Six fresh cases of cholera have been reported in five places in this district. Two deaths have occurred.

Another Mysterious Death.

New York, Sept. 12.—What may develop into another mysterious hotel murder like that of Jacob H. Thompson, a well known editor, was discovered yesterday in an obscure hostelry at Sixth avenue and Fifty-sixth street. Through the odor of escaping gas, the maid in the hotel was drawn into a room occupied for the night previous by Alfred Rattinger, a public accountant who lived with his wife, father and brothers in West Fifty-second street. The room was broken open and Krattinger found dead in the bed. There were no signs of violence, and it appears that the man had begun to discover things. A coroner and detectives made a systematic examination of the body and room and began to discover things.

SITUATION GROWS STEADILY BRIGHTER

Rigid Quarantines Have Been Greatly Modified.

20 NEW CASES BUT NO DEATHS

The Mosquito Theory Is Cause of Row Among Physicians—Heavy Rains Ruin Cheesecloth Screens—Pensacola Reports One Death.

New Orleans, Sept. 12.—U pto noon today there were 20 new cases of yellow fever but no deaths.

New Orleans, Sept. 12—Threatening weather again prevailed here today with showers predicted by the weather bureau. The rains during the present month have done much damage to the cheesecloth screens of the cisterns and householders are put to so much work in repairing tears that they will welcome a spell of clear weather again.

There was little change in the fever situation today with the early reports indicating some increase over the number of cases reported on Sunday. The cases continue to be widely scattered.

Advices to the express companies indicate that there has been much modification of the quarantines, many of the towns now reporting their willingness to receive express matter which formerly would not take it. Cars carrying express are disinfected before they leave here.

Mosquito Theory Causes Row.

The lack of faith on the part of some of the authorities in the mosquito as the only transmitter of yellow fever is given as one of the causes of the row which has resulted in Dr. Tichenor's withdrawal from Tallulah whither he had been sent by the board of health to take charge of the situation. Dr. Tichenor was sent to Bon Ami when the fever first occurred there, and was so successful in stamping it out by warring on the mosquito that great confidence was placed in his ability. Until he got on the ground at Tallulah no one had any idea of the extent of the disease there.

Dr. Tichenor at the end of his investigation telegraphed that the whole town was infected, that the situation was exceedingly serious and that help was needed. The new cases and deaths since have borne out his first telegrams. Dr. Tichenor immediately proceeded to apply the mosquito theory rigidly, but found that some of these in authority did not altogether believe in its with the result that friction resulted and he asked to be relieved. Efforts are being made now to send Dr. Esdorf to Tallulah.

The number of cases reported here in the past twenty-four hours is the smallest for many weeks, but the public is disposed to believe that the favorable record is due to the fact that the Sunday inspection is not as thorough as it is on week days, and a considerably larger number of cases is looked for today. Nevertheless, the situation is regarded here as most excellent, and it is universally believed that while the fever will not have been wiped out on the 1st of October, it will be in a declining state at that time. Conditions in the country are more acute because people of prominence in their communities are beginning to fall victims. Among the deaths at Lake Providence are division Foreman W. R. Houx, of the railroad at that point, and Captain V. H. Purd, a confederate veteran who was the landing keeper. At St. Rose, Ozme Hymel, son of a prominent farmer, has succumbed. The disease at St. Rose has been especially malignant, there having been a total of 17 deaths out of 55 cases.

Country towns are appealing to Governor Blanchard for financial assistance. Many of the parishes have exhausted their available funds in the enforcement of quarantine regulations and now find it difficult to provide money to care for the sick. Governor Blanchard is extending relief where ever he can on the principle of self-help. He has on the principle of self-help.

the example of New Orleans in making guarantee of subscriptions at home before seeking help from the state.

Investigation at Mobile.

Mobile, Ala., Sept. 12.—Dr. Joseph Goldberger, of the United States Marine Hospital service, has been in Mobile for two days making a searching investigation of health conditions. He was sent here by Surgeon General Wyman, who had received complaint that there was suspicious sickness in Mobile. Dr. Goldberger visited every house where a person is ill and today he remarked that Mobile was the healthiest city he had seen. There is not the slightest evidence to bear out the assertion of a case of suspicious fever.

Situation at Pensacola.

Pensacola, Fla., Sept. 12.—An autopsy just held on O. R. Wolfburg, Norwegian vice consul at Pensacola, who died this morning, discloses the fact that he had malignant case of yellow fever. This is the only death and the only case announced today, but there will probably be two or more cases reported by tonight.

LYNCHING NARROWLY AVERTED

New York, Mob Chases Man Several Blocks, But Police Interfere.

New York, Sept. 12.—A row which started early today at Second avenue and Fifty-ninth street, in a quarrel over a seat in a crowded surface car almost ended in a lynching.

Tony Brown was beaten severely by a mob which chased him from Third avenue to Second under the belief that he had committed murder. Had it not been for his prompt rescue by a policeman the man might have been beaten to death.

A woman, who entered the car with her husband, her brother and another man, was about to take a seat when Brown made a rush to it. The woman's husband protested. Brown drew an ice pick and stabbed him through both hands. Then he attacked the other two men and plunged the pick into their bodies.

A panic ensued among the crowd aboard the car and when Brown leaped off swinging the weapon over his head, he was followed by several hundred persons. After running a block, he was tripped and jumped upon by the mob. Two policemen arrived in the nick of time. They ordered the mob to desist, but were met with refusal, and only succeeded in rescuing Brown by drawing their revolvers and holding the crowd back until a reserve force arrived.

RETURNS FROM AFRICAN WILDS.

Man Tells of Horrible Experiences of Three Long Years.

Chicago, Sept. 12.—A Tribune dispatch from Mobile, Ala., says:

William Hilburn, a former resident of this city, arrived here yesterday after three adventurous years spent in the wilds of Africa with sixteen others in response to glowing offers by agents of a construction company building the Cape to Cairo railroad. Hilburn is the only one of the sixteen to return alive.

Hilburn and his fifteen companions accepted terms to work on the railroad as engineers and trestle builders.

They left Pensacola, Fla., on Aug. 22, 1902, under a promise of big wages and other flattering inducements. The party embarked for the Zambesi river district, north of the Transvaal, where the Cape to Cairo railroad was under construction.

In due time they arrived. At this time Hilburn states their hardships began. What was expected to be a scene of activity and wealth turned out to be a desolate railroad camp in the jungles.

Mexican Lotteries Must Cease.

Guadalajara, Mexico, Sept. 12.—The state officials here say that word has been sent out from the City of Mexico that all lotteries in the republic must be suppressed. The suppression will follow the expiration of the franchise held by the Loteria de La Beneficencia Publica. This franchise was granted for 25 years and

ARMISTICE SOON TO BE ARRANGED

Russians Have Not Been Informed Officially of Treaty.

ARMIES HAVE A SKIRMISH

Russians Attacked Japs and Are Repulsed, Leaving Forty Dead on the Field—Claim Russians Have Been Using Dum-Dum Bullets.

Tokio, Sept. 11.—4 p. m.—On Sept. 9 the Japanese in North Korea dispatched the bearer of a flag of truce to the Russian camp, but the Russians refused to treat owing to the non-arrival of the notice that an armistice was to be arranged.

Skirmishing occurred in Manchuria Sept. 9. Two companies of Russian infantry with two guns opened an attack but were outflanked by the Japanese and fled in disorder, leaving 40 corpses.

The Official Gazette published facts based on medical evidence of the use of dum-dum bullets by the Russians at the fighting of Vladivimiroff and in other engagements on the Island of Sakhalin. The Gazette also published facts in connection with Russian abuse of the Red Cross flag and cruelties to Japanese.

Japan's Minister Resigns.

Tokio, Sept. 11.—2 p. m.—The resignation of Home Minister Yoshikawa has not been accepted, but its acceptance is expected later. The privy council is holding a special session hearing reports of the cabinet on the progress of the domestic situation.

At the prefecture the governors assembled at Tokio are reporting on provincial conditions. They are being instructed regarding the policy to pursue toward the disturbance. At a mass meeting at Osaka, this afternoon, it is expected that the resolutions will be passed denouncing the peace policy of the government. The Nireku of Tokio has again been suspended.

RED MEN IN ANNUAL SESSION

Representatives of that Order Gather in Nashville, Tenn.

Nashville, Tenn., Sept. 12—The forty-eighth annual session of the Great Council of the United Improved Order of Red Men, convened at the state capital here this morning with several hundred delegates present from every state in the union and Great Incohonee John W. Cherry, of Norfolk, Va., in the chair.

Among the prominent Red Men present are Great Incohonee John W. Cherry, of Norfolk, Va.; Great Senior Sagamore W. H. Byrd, of Topeka, Kans.; Great Chief of Records Wilson Brooks, of Chicago, and Great Prophet Thomas G. Harrison, of Indianapolis.

Governor Cox welcomed the delegates in behalf of the state and Mayor Williams for the city.

Response was made by Great Incohonee Cherry. Today's session was devoted principally to organization and addresses.

The Great Keeper of Wampum's report shows the total wampum of the order to be $3,998,489.96. There are now 4,396 tribes, an increase of 283 during the year and an aggregate membership of 382,121, of whom 1,944 are in Tennessee. The Great Keeper of Wampum's report shows a balance on hand of $32,401.56; receipts during the year having been $54,2... and disbursements, $21,854.22.

Revenue Officers Indicted.

Charlotte, N. C., Sept. 12.—The special term of the federal court, held at Greensboror to investigate charges of fraud on the part of revenue officers and distillers yesterday returned 28 indictments. The charges include bribery, forgery, perjury, false reports of captured stills and false expense vouchers. Several of the collectors indicted are prominent in Republican circles. Against Collector R. B. Hartin there are 42 counts, embracing violation of nearly all the revenue regu-

NEWS OF CITY AND COUNTY CONDENSED

E. F. Jordan has returned from a visit to relatives in Alachua.

Mesdames A. Hunsicker and G. L. Mock of Rocky Point were shopping in the city yesterday.

Nicely furnished room for rent. No smoking. Apply on premises, 303 E. Liberty street, or at this office. tf

Mrs. S. T. Dell has returned from Starke, where she has been on a visit to her parents, Col. and Mrs. W. T. Weeks.

Friends of Dr. A. J. Vidal, who has been suffering with pleurisy for the past three weeks, will be gratified to learn that his condition is greatly improved.

M. D. Fulton, a prominent citizen of North Carolina, was in the city yesterday. He is thinking seriously of settling in Florida, and was here on business with the United States land office.

Miss Edith Hendricks of Green Cove Springs, after a pleasant visit to Miss Ada Banks of this city, has returned to her home. She was accompanied by Miss Banks, who will remain in Green Cove Springs for a few days.

Dr. C. F. Dawson has returned from Miami, where he has been on official business for the State Board of Health. Dr. Dawson reports the spinal meningitis among horses in that section, which is proving quite serious.

Work has begun on the brick building of S. H. Benjamin of Micanopy, which will be a modern structure in every respect. The building will contain three stores, and will no doubt meet a ready demand, as the commercial interests of Micanopy are very encouraging just now.

An enjoyable party was given by members of the Gainesville Guards at the home of Mr. and Mrs. S. H. Dempsey, 402 N. Pleasant street, Monday evening, which was well attended by the young people. The evening passed off in a most enjoyable manner, and all who attended report a delightful time.

Homer Love of Trenton was a business visitor to Gainesville yesterday. Mr. Love is engaged in the ginning business and states that the damage to the cotton crop is apparently not as bad as some farmers have placed it. He believes that 10 per cent on an average in his section will cover all loss on this staple. The ginning so far this season averages favorable with last year.

Alachua and Baker counties are taking a lively interest in the State Fair. Major Tench, the Fair Commissioner of the former county and Mr. Barber of the latter county, were in the city yesterday and spoke of the active work being done by their people toward making a creditable exhibit. Major Tench makes no secret of the fact that Alachua expects to capture the first county prise, and Mr. Barber, while he is not making any claims, says that Baker will be somewhere near the top.—Tampa Tribune, 10th.

Mrs. Edith Hunter, accompanied by her daughter, Miss Edith, and son, Will, were in the city yesterday on their way to the East Coast. Mrs. Hunter and Miss Edith will have charge of the schools at Jenson, while Miss Susie Hunter will teach at Titusville. Both mother and daughters are thorough instructors and have many friends in Alachua county, where they have been engaged in teaching. Mrs. Hunter was secured for the Gainesville Graded and High School for the coming year, but owing to the abandoning of the Seminary, depriving her children of its advantages, preferred the school at Jenson at a larger salary.

Georgia Negress Arrested in London.

New York, Sept. 13.—A person giving the name of Paul Dowring, who was arrested at the Black Friars bridge, has been ordered at the Mansion house to be sent to the insane asylum at Dartford, says a London dispatch to the Herald. Downing turned out to be a Georgia negress, who, for two years has been masquerading in England as a man. She was arrested Saturday but the police had no suspicion of her sex and not until she had been removed to Bow infirmary was the discovery made. At that time she was taken into custody the negress, who posed as a man, claimed to be looking for a wife in the omnibus that was passing.

BOARD OF CONTROL MET.

Three New Teachers Named for University of Florida.

The Florida Board of Educational Control met in this city yesterday for the purpose of disposing of the regular business for the month. Owing to the fact that the Board will not receive the reports of the architects designated to make plans for the University buildings at Gainesville, there was nothing before this meeting other than routine business.

Among the matters disposed of was the regular bills for the month and the appointment of teachers for the University of Florida as follows:

A. H. Chapman of Mississippi, assistant to the head of the department of agriculture.

H. V. Fawcett of Ohio, assistant to the head of the department of agriculture.

Leonard Haseman of Indiana, assistant to the head of the department of entomology.

There were a great many bills paid for the various schools. Those present at the meeting were President N. P. Bryan of Jacksonville, Dr. Brown of Eustis and N. K. Adams of White Springs. Secretary Kellum and President Andrew Sledd of the University of Florida were also in attendance.—Times-Union, 13th.

Accident to Mrs. Duke.

Mrs. S. V. Duke was the victim Tuesday of a painful accident which will cause her considerable inconvenience for some time. While peeling sugar cane the knife slipped, penetrating the left arm, which caused the member to bleed freely.

Dr. J. H. Colson was summoned and dressed the wound, and at last accounts the lady was resting easily. Friends sympathize with her in this misfortune.

A GREAT
EDUCATIONAL
MOVEMENT!

A Magnificent Library Worth $500
Offered Free of Cost!

Something SUN Readers Should Consider

Read the Following Details Carefully:

The Mystery Surrounding the Beautiful Display in W. HYDE'S Window Revealed in the following.

A number of our enterprising merchants have arranged what will prove to be a most interesting contest between the High School, Twentieth Century Club, Odd Fellows' Home, B. P. O. Elks, Volunteer Firemen, Masons, W. O. W., K. of P., Gainesville Guards, Kirby Smith Chapter or J. J. Finley Chapter of the U. D. C., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at $500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library, consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 36 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchant through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their name and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted, and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.

STREET BUILDING MACHINERY HERE

Material Has Been Ordered, and Work of Paving Will Begin.

WEST LIBERTY STREET FIRST

This Thoroughfare Will be Paved From the Gainesville and Gulf Tracks to the University Grounds—Government Will Furnish an Expert.

The road and street machinery ordered by the City Council a few weeks ago has arrived, and work upon the principal thoroughfares of the city will begin at once.

The first work to be undertaken will be West Liberty street, from the Gainesville and Gulf Railway tract to the University grounds, a distance of a little more than half a mile.

The machinery is modern in every way, and the best of its class that could be secured. It comprises one ten-ton steam roller, with harrower, and pulverizer combined, one No. 4 Champion crusher, and one twenty-five horse-power electric motor from which the power is to be supplied. Workmen have been engaged for the past two or three days in constructing an immense bin of forty-eight tons capacity. This bin is located immediately beside the Gainesville and Gulf tracks, near the depot, and the material may be unloaded from the cars into the bin.

The people of Gainesville are to be congratulated upon the fact that no better material in the world for street-building purposes can be found than in Alachua county. Chairman W. B. Taylor of the street committee has exhibited a sample of flint as hard as steel, which came from the quarries of O. P. Cannon of Rocky Point. Chairman Taylor has contracted with Mr. Cannon for the delivery of from 2,000 to 5,000 tons, which means that street building will be one of the orders of progress with the city for some time to come.

The United States Government has generously consented to send an expert here for two months, for the purpose of properly training some person in practical street and road building, which will mean a great deal to the city and county.

Work on West Liberty street will begin at once.

PROMINENT MAN ARRESTED.

Mrs. W. D. Smith Alleges That Dr. Davis Obtained Money Falsely.

Quite a sensation was created in this city Tuesday afternoon by the arrest of Dr. G. N. Davis, a prominent figure upon the streets of Gainesville for the past two months.

Dr. Davis is a dentist, and came from Williston to Gainesville. He was a guest when first coming here of Mr. and Mrs. W. D. Smith, 206 W. Court street, and has since been a regular boarder at the Smith household.

The charge upon which Mr. Davis was arrested was made by Mrs. Smith, who alleges he obtained money from her under false pretense, in inducing her to let him have money for securing an option on a certain parcel of land. She states that she let the defendant have the money, $25, for that purpose, and that no option was secured, but the money was appropriated in another way.

Since coming here Dr. Davis has been engaged in the real estate and collection business. About two weeks ago he went to Williston, where he was stricken with fever, and never returned to Gainesville until Monday, when his arrest followed Tuesday.

The defendant was arraigned before Justice Colman, but the case was postponed until Wednesday, the 20th, and he was released on $200 bond, with J. G. Harrold as security.

THE YELLOW FEVER.

There Seems to Be Only Slight Gains on the Disease.

Pensacola, Sept. 12.—The nine new cases reported yesterday afternoon came in quite late, and it is generally in the evening when the doctors get time to give in their statements of the cases and deaths. All who can are fleeing from the contagion.

At New Orleans.

New Orleans, Sept. 12.—There were no deaths yesterday and but 36 new cases. The fever has surely been receding somewhat in the city, but the country towns are making poor headway.

THE CHANGE OF LIFE

INTELLIGENTWOMEN PREPARE

Dangers and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, dread of impending evil, sounds in the ears, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs A. E. G. Hyland, of Chestertown, Md., in a letter to Mrs. Pinkham, says:

Dear Mrs. Pinkham:—

"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I had a good deal of soreness, dizzy spells, headaches, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

K. OF P. DISTRICT MEETING.

Meeting Will be Held at Waldo Wednesday—Big Time Expected.

The district meeting of the Knights of Pythias will be held with Waldo lodge of that order this afternoon and evening, and promises to be well attended. An excellent program has been arranged which is bound to prove interesting, as it will treat of the subject of Pythianism.

The hospitality of the Waldo brothers is so well known that it is unnecessary to say that those who will attend this meeting will be received with more than a fraternal welcome. They will be entertained in a loyal and hospitable manner, and their visit will long be remembered.

Knights who attended the district meetings held in this city fully appreciate the enjoyment and the good to be derived, and it is safe to say that as many as can possibly get away will be present.

The district comprises nine lodges, three counties, and in the absence of District Deputy W. E. Dow, who is now on a vacation, the meeting will be presided over by Grand Prelate L. C. Lynch.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption, coughs and colds." Greatest sale of any cough or lung medicine in the world. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

Meeting of Council.

The City Council convened in adjourned session Tuesday evening for the purpose of winding up some unfinished business from previous meetings. Among other business transacted was the fixing of the water meter system, and the passing of resolutions governing the water consumers.

BRYAN GIVES MONEY TO SCHOOL.

The Famous Bennett Will Case Is Fnally Settled.

New Haven, Conn., Sept. 12.—Rev. Alexanders E. Irvine, of this city, has received a letter from William J. Brown, executor of the estate of Philo S Bennett, saying that the estate has been settled. Mr. Bryan submits a list of the payments to be made out of the estate, including the Bennett prize fund. Mr. Bryan's fund for poor boys and his fund for poor girls, each of the three amounting to $10,000. Mr. Bryan's funds are distributed among normal schools and colleges throughout the south and west, and are given to aid girls and boys in securing an education. The Bennett prize fund is shared by several colleges and universities throughout the country.

Mr. Bryan announces that he shall not use any of the executor's fees for himself, but that he has divided them up into small charitable donations. The provisions of the "sealed letter," over which there was a contest by the residuary legatees, have been lived up to, according to the executor's report, the $50,000 being distributed to educational and charitable institutions.

A Pretty Home Wedding.

Near Melrose, at the home of the bride's parents, Mr. and Mrs. H. J. Fowler, at noon, September 6th, Miss Alice Elvy Fowler and Mr. W. T. Robarts entered the beautifully decorated parlor to the strains of Mendelssohn's Grand Wedding March, played by the talented Mrs. A. G. McGregor, and there, beneath a lovely canopy of living green and delicate roses, were the words spoken that made them man and wife; the ceremony being performed by their much-loved pastor, Rev. B. R. Moseley.

The bride was beautifully attired in a blue and silver costume, trimmed in cream chiffon and lace, carrying a boquet of exquisite roses and white lilies. She is the daughter of one of Putnam county's substantial citizens, and the sister of Rev. F. J. Fowler, who is now the missionary to Argentina, S. A.; and is one of the gentle ones of earth, with that loveliness of character that combines earthly charms with rare Christian graces.

The groom is one of Alachua's honest, progressive young business men, who numbers his friends by the score.

Many handsome and useful presents were received from friends.

The happy couple left at once amid a shower of rice and other tokens of prosperity, and amid heart-felt adieus from assembled friends for Daytona, where they will visit the parents of Mr. Robarts, when on their return, they will be "At Home" in Alachua.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." Sold by W. M. Johnson.

Women's Headaches

542 1-2 Congress Street,
PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pain would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nineteen days treatment I menstruated without suffering agonies I usually did and soon became regular and without pain.

Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

Mrs. Wilhelmina Snow
Treasurer, Portland Economic League.

Headaches are the danger signals of coming disease. Both men and women suffer headaches, but periodical headache falls only to the lot of women and is the unerring sign of irregular menstruation and bearing down pains. Completely prostrated by nine months of suppressed menses, blinded by headaches and racked with pain Mrs. Snow was made a strong and healthy woman again. Remember with Wine of Cardui no case is hopeless because this great remedy cures permanently nineteen out of every twenty cases and never fails to benefit a case of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, try Wine of Cardui, and try it now. Remember that headaches mean female weakness. Secure a bottle of Wine of Cardui today.

All druggists sell $1.00 bottles of Wine of Cardui.

St. Joseph's Academy at St. Augustine opens next Monday. The Sisters in charge anticipate a large enrollment.

There has been more rainy days in Pensacola this summer than there has been in any summer before during the last 50 years.

Prisoners at the jail in Pensacola are given Basso's yellow fever remedy. It is perhaps the most severe punishment the murderers will get.

Early Sunday morning the Jacksonville police raided a West Bay street colored gambling joint and captured seven men at work. Samuel Reynolds was running the place.

So many houses are being erected at Pensacola that it is a hard matter to get shingles fast enough for the roofs. The new Methodist church is awaiting the arrival of shingles for the roof.

The Pierson correspondent of The Volusia County Record is the champion on "gush." It must be very entertaining for the young ladies in his locality to read his bunch of items each week.

Tom Bowie, colored, of Pensacola, was taken into custody Saturday night on the charge of being a dangerous and suspicious character. He was just starting ready to "burgle" a house as the officer nabbed him.

There is a demand for men to work on the new railroad being built to Perry and they are advertising for laborers. Perry is going to put in waterworks, new lots are being surveyed for building purposes, and the town is on a genuine boom.

Jacksonville will need something besides a Jim Crow ordinance to rid the city of the gang of toughs that linger around its tough places. From 9 o'clock Saturday morning until 7 o'clock Sunday night the police run in 30 for various offenses.

Walter Abner, a 17-year-old colored lad of St. Augustine, bound over on the charge of stealing a bicycle, was being held in the sheriff's office before he was taken to jail. When the officer went to get him the room was vacant. Abner had jumped out of a window 20 feet from the ground and made good his escape.

A correspondent of The St. Lucie Tribune sensibly remarks: "It would be a fine scheme to take every old barometer and bury it the first of August and not dig it up until December. The owners of barometers go around all puffed up with pride, and hint darkly of cyclones to come, and scare us all half to death and we don't have breeze enough to dry the clothes on the line. They should be suppressed—barometers, weather prophets and all. It is bad enough to have a gale when it gets here, and not be multiplying gray hairs in anticipation."

CHATTANOOGA HAS BIG FIRE.

$500,000 Conflagration Takes Place in Tennessee City—Cause Unknown.

Chattanooga, Tenn., Sept. 12.—At least $500,000 is the estimated loss in a fire which broken out here in the freight yards of the Cincinnati, New Orleans and Texas Pacific Railway company, totally destroying the freight depot, with its entire contents, 42 freight cars, most of which were fully loaded; two mail cars, two baggage cars and the private car of Superintendent M. W. McGuire. Four hours' time was required by the combined fire departments of the city in extinguishing the flames, which had spread rapidly before the alarm was turned in, and on account of the difficulty the tracks made of reaching the burning point.

The origin of the fire is a complete mystery. It was discovered at 6:55 p. m. by a watchman. At the time flames were pouring through the roof of the freight depot, and in a few seconds they had attacked a number of cars which were standing along the tracks. An effort was made to move some of the cars, but all could not be gotten away on account of the density of the smoke and the intense heat.

SHOOTS GIRL; COMMITS SUICIDE.

Young Woman Refuses to Marry Youth Who Commits Deed.

Frederick, Md., Sept. 12.—Because his 16-year-old sweetheart persisted in her refusal to marry him and had dismissed him, Lee Weddle, 17 years of age, is dead by his own hand, the sweetheart, Nellie Eichelberger, is suffering from two pistol shot wounds that may prove fatal, and her friend and companion, Maud Davis, has a bullet wound through her arm.

Miss Eichelberger, with Miss Davis and another girl, were shopping and had reached the public square of Thurmont when Weddle approached and took Miss Eichelberger to task for sending him his letter of dismissal.

Upon her reiterating the sentiments she expressed in the letter, Weddle drew a revolver and fired at her twice. The first of the bullets went hrough Miss Davis' arm and into Miss Eichelberger's left shoulder; the second penetraed a few inches to the right of the first.

As his victim fell fainting to the ground, the boy, believing he had killed her, turned the weapon upon himself and sent two bullets through his own heart, dying instantly.

FINED ONE DOLLAR.

Mrs. Ruth Freeman of Jacksonville was convicted of aggravated assault on Owen Loadholtz, and on Monday Judge Shaylor of the Criminal Court of Record imposed a fine of $1 and costs upon Mrs. Freeman. Loadholtz is charged with the ruin of a daughter of Mrs. Freeman, Miss May Brown, and afterwards killing her by shooting, for which he was tried and convicted and fined $300, claiming he did the shooting in self-defense, Mrs. Freeman having fired at him in the court room of Justice Farris.

Loadholtz can consider himself lucky in getting out of his trouble as easily as he did, as the extreme penalty for even carrying concealed weapons was not meted out to this specimen of depravity who gloated over his criminal relations with Miss Brown, and he will be despised by all decent people with whom he may come in contact.

While Judge Shaylor did a commendable act, there is no reason why he should not have done as he did, except in the case of Loadholtz, who should have had the full extent of the law for carrying concealed weapons—a practice that is causing more trouble than any one violation of law in the State, and for which, in only a few cases, the judge before whom such law-breakers are arraigned have the courage to fine them the minimum sum or sentence prescribed by the law.

CHICKEN RAISING.

The high prices paid for chickens and eggs in this city should be an inducement to farmers and others to engage more extensively in this industry, as at the prices paid for both chickens and eggs there is no reason why it could not be made to pay a good profit.

There is always a good market in Gainesville at top prices, and many chickens are shipped from points North of here to the Southern portion of this State, and it seems as though a chicken farm in this vicinity could be made to pay a much better profit to the growers than those of Kentucky and Tennessee, where they are obliged to send their products such a distance to find a ready market.

The raising of chickens in Florida requires considerable care and attention, and the man who goes into the business on a large scale must devote some time to the work, yet it seems as though the prices would warrant this, when eggs are sold in the North as low as eight and ten cents a dozen, but seldom go below 20 cents in this city, if ever.

Spring chickens, too, are always in demand, and the man who goes into the business can certainly find a ready sale for all the chickens and eggs he can produce.

There is much said in the papers about the humanitarian, and if one does a kindly act toward a dumb animal he receives due credit and people sing his praises. But there is other life that is as deserving of the watchful care of those disposed to be humane as animal, and that is the life and care of our beautiful trees. A few days ago a man manifested this branch of humane work, which is worthy of emulation by others. Being at work cutting the weeds and rank growth near the Tabernacle, some one asked him what he was doing, when he said: "I am trying to give these young sweet-gum trees a chance for their life by cutting out these weeds." There is room for more of these workers in the cause of humanity in various parts of the city.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

"Aging" a Rug.

A good deal of fraud is practiced in selling antique "Kazaks," "Daghestans" and similar rugs, for there are hardly any of these which are more than fifteen years old. They are "aged" artificially, but you must understand nevertheless that these rugs are well made of the very finest wools, and the native dyes used are pure and good. When they have been made they are lent in the village to "the butcher, the baker and the candlestick maker"—to any one, in fact, in whose house there is plenty of traffic. Here the carpets are trampled upon and made to look old. They are afterward washed in a running stream and then dried in the sun. And by these means the rugs get an antique complexion and a certain gloss which are much appreciated. What may be called a genuine "antique" is thus manufactured and sold in the bazaar for ten times or twenty times the price for which it could be bought in London.—Constantinople Letter.

Garibaldi's Ashes.

It is generally known that Garibaldi left directions in his will for the cremation of his body and that through the intermediary of the Italian government his wishes were overruled. Few, however, are probably aware of the minutiae of detail into which Garibaldi entered upon the subject or of the extent of self consciousness which is evident at every line of the direction. "Facing the sea you shall erect a pyre two meters high, built of acacia wood, myrtle and other aromatic trees and plants growing at Caprera. On this lay a sheet of iron, on which shall be placed my body, dressed in the red shirt. A handful of the ashes place near the coffins of my daughters Rosa and Anita." The rest were to be blown away by the wind as seeds of liberty for other parts of the world.—London Globe.

LIFE ON A WARSHIP.

Why the Men Are Allowed to Indulge In Athletic Sports.

To see a thirteen inch gun loaded and fired is a sight not to be forgotten. The projectile is thirteen inches in diameter, about three feet in length and weighs 1,100 pounds. The powder charge for target practice is 250 pounds. The cost for each shot is about $500. When all is ready on the range the signal siren sounds, there is a blinding flash, a roar like thunder and a jarring shock. Then you hear the whining screech of the shell, for all the world like a fast express rounding a sharp curve. The projectile is visible almost from the time it leaves the gun. You see it rip through the target and strike the water beyond, throwing up a column of liquid many feet high. The shell skips, much like the flat stone "skipper" of our boyhood, and again a column of water shoots up two miles or more farther on, to be repeated time and again. The shell in its flight can be watched without the aid of glasses for eight miles or more in clear weather.

While the life of a sailor, from captain down to apprentice, is an almost continual round of work, some time is found for athletic sports, such as boat racing, football and baseball. The object of this is to give the men recreation and at the same time to foster the spirit of competition. Besides, it makes the men easier to manage. The ship with a strong football or baseball team or the fastest race boat almost invariably has a happy and easily managed crew—a crew that will swear that its officers are the finest men in the world, and likewise the officers swear by such a crew. Some ships have training tables for their athletic teams, the expense usually being defrayed by the officers. The team or boat crew, as the case may be, is petted by the officers and idolized by the crew, and for some time before a hard contest the men are excused from various duties in order that they may give more time to training.

Every battleship and cruiser has its race boat, purchased by contributions from officers and men. The prices paid for these boats is, as a rule, contingent upon their winning certain specified races. The builders are willing to take a chance, knowing that the crew will do its best to win. For a winning boat the price is often as much as $1,000, while for a boat that proves less speedy the builder will accept $500 or less. On the result of a fleet boat race as much as $50,000 has been known to change hands, and large sums are also wagered on baseball and football games. This is, of course, contrary to the letter of the regulations; but the sporting instinct is as strong in the navy as elsewhere—and it is not always possible to hold down the lid.—Leslie's Weekly.

The End of the World.

That the earth will eventually dry up and all living things will die of thirst is the theory of a scientific writer. He says that in both Africa and Asia, and indeed in all the great levels of the world, the water beds are drying up. Many lakes well known during the historical period have entirely disappeared, while others are shrinking rapidly. "Explorations in central Asia have proved that for centuries a zone stretching from the east to the southeast of this part of the czar's dominion has been drying up. Deserts are gradually spreading, and reports show that it is only in the neighborhood of mountains, round whose brows vapors condense and fall, that irrigation can be carried on or life itself can be preserved."

Just What He Meant.

An American in London once attended a dinner where Henry Arthur Jones told a story about Beerbohm Tree.

"Mr. Tree," said the playwright, "met a friend of his one afternoon in Regent street.

"The two stood and conversed a little while, and then Mr. Tree said:

"'Have you been down to see me act lately, my boy?'

"'No; too poor,' said the other.

"'Too poor,' Mr. Tree exclaimed. 'Why, you spend enough on wine and cigars'—

"But the other, nettled, interrupted.

"'I don't mean I'm too poor. I mean you're too poor,' he said."

Cramp in the Legs.

People who are subject to cramp in the legs should always be provided with a good strong piece of cord, especially in their bedrooms. When the cramp comes on take the cord, wind it round the leg over the place where it is cramped, take an end in each hand and give it a sharp pull, one that will hurt a little, and the cramp will cease instantly. People much subject to cramp in bed have found great relief from wearing on each leg a garter of wide tape which has several thin slices of cork stitched on to it.

We Eat Too Fast.

"The trouble is that we eat too fast," said the man who worries about health.

"That's right," answered the man who worries about money. "Some of us eat so fast that our incomes can't even get to our mouths."—Washington Star.

COLORED SKIN.

A Theory That It Is an Intermediary Stage of Development.

The origin of colored skin, or white either, is still unknown. If the sun is really the active agent in its evolution, the power of sunlight must have been curtailed when people took to wearing clothes.

The slightest protection, as seen in the use of ladies' veils, keeps the white skin pure. Therefore, if there is any protection afforded by natural dark skin, an equivalent is obtained for white people by the use of clothes. Until white people begin to discard clothing in the tropics their skin will remain white.

Sunburn must not be confounded with pigmentation of the skin. Sunburn is merely a tanning of the epidermal cells on the surface of the skin, whereas pigmentation is caused by a deposit of dark matter within the deeper layers of the true skin.

Summing the whole evidence up, considering all arguments derived from history, anthropology, ethnology and general evolution, it seems to me that the colored skin is an intermediary stage of development between our primate ancestors and the pure white or Caucasian skin. My general contention is that white skinned peoples come from the oldest stocks of humanity and that in the process of evolution they became white by the use of clothes.—Dr. T. F. Macdonald.

Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by W. M. Johnson.

A Curious Story.

In "A Diary From Dixie," by Mary Boyd Chesnut, there is a curious story of a beautiful Washington girl, Mattie Reedy, who, weary of the abuse that her northern friends showered upon the southern general John Morgan, took up the cudgels in his defense. "What's your name?" asked an officer, turning fiercely upon her. "My name now is Mattie Reedy," was the answer, "but, please God, I shall one day call myself Mrs. John Morgan." Up to this time she had never met or even seen John Morgan. Somehow the story came to his ears. He sought her out, courted her and married her.

A Clear Complexion and Bright Eyes.

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollam & Co.

The First Oyster Eater.

The gluttonous Vitellius is reported to have eaten 1,000 oysters at a sitting. "He was a very valiant man who first ventured on eating of oysters," King James was wont to declare, a sentiment echoed by the poet Gay:

The man had sure a palate covered o'er
With brass or steel that on the rocky shore
First broke the oozy oyster's pearly coat
And risked the living morsel down his throat.

Shed Your Cares.

Form a habit of throwing off before going to bed at night all the cares and anxieties of the day—everything which can possibly cause mental wear and tear or deprive you of rest.

It requires much less philosophy to take things as they come than to part with them as they go.—Chicago News.

BANDITS GET HOARDED WEALTH

$300 Is Taken From Rich Farmers In State of Illinois.

Chicago, Sept. 12.—A dispatch to the Record-Herald from Elgin, Ill., says: Bound, gagged and tortured by three bandits who sought to make them reveal the hiding place of a treasure they thought concealed in the house, Andrew and John Fohren, old and wealthy farmers living near Spring Lake, 12 miles north of here, are in a serious condition, and it is feared that the shock and injuries may prove fatal to Andrew, the elder of the two brothers.

Andrew, after the robbers had made a search of the house and taken $300, managed to free himself from the thongs which held him and started across the fields to secure help. The soles of his feet were blistered, however, and before he had gone far he fainted and fell in a ditch where he lay until after daylight. Finally he revived and made his way to a cheese factory where he gave the alarm, but the bandits had gained a start of several hours. The bandits appeared last night and when refused admittance battered in the door and overpowered the old men, after a brief struggle. They searched the house and finding only $300 concluded that a larger sum was concealed somewhere. They beat and choked their victims and finally applied lighted papers to the soles of their feet to make them tell where the supposed treasure was hidden.

After an hour of excruciating torture, John Fohren fainted from pain and the robbers left. John was still unconscious when assistance arrived but revived and is in a less serious condition than his elder brother.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostrate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

New York Schools Open.

New ork, Sept. 12.—Greater New York's public schools will open this morning and the children will march into the class rooms in many places as the carpenters, plumbers and mechanics march out. Every available artisan has been employed day and night since last Friday on the unfinished structure s that were in skeleton form a short time ago. Still with all the extaordinary effort and close figuring officials of the board of education can only guess at the number of children who will be enabled to find accommodation in class rooms today. The most reliable estimates indicate that there will be 75,000 to 80,000 children this year in half the class.

The Original.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Young Man Crushed to Death.

Conyers, Ga., Sept. 12.—Harry Davis, a young white man, was killed in the yards of the Atlanta and Birmingham Railway company in this city by being run over by a through freight train. Mr. Davis was flagman on the train and was attempting to make a coupling when caught and run over. His body was cut in twain and the lower was found a few feet from the body, having been torn entirely out. No one seems to know exactly how the young man fell, though one has tseen of him above he was between the cars attempting to make the coupling while the train was in motion.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from their food is not assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. Sold by W. M. Johnson.

CHURCH ALES.

An Old English Custom of Raising Money For Church Use.

A curious light is thrown on ancient church bazaars and charity balls by certain records kept in some of the churches in England. For instance, in the records of Yateley church, which date from 1543, are frequent references to "church ales," the object of which was to get money for church expenses.

The feast was organized by the church wardens, "who provided a good spread at so much a head, and credited the profits to the church expenditure." It first appears as the "church ale," then as the "king's ale," then later as "our banquet at Whitsuntide." It was probably held in the church and went on until 1643, the year after the civil war broke out, when probably the Puritans put an end to such festivities. It was popular evidently.

One enterprising churchwarden has left on record all the good things which were prepared for the Crondall "church ale" in the year 1587. They had a band, brewed a quantity of ale, and made a profit of $42. As money was then worth nearly ten times as much as now, the "church ale" may be said to have brought in about $400, which was just 100 per cent on the outlay. The band was hired for four days.

THE SENSE OF TRAFFIC.

A Good Thing For Those In Crowded Centers to Cultivate.

Every town dweller should cultivate his "sense of traffic." At first this means that he will take every step in a crowded thoroughfare with a reasoned consciousness. He will never think of his business or his pleasure while he is in the street, but only of the way in which he is going, of what is before him, of what is on either side of him and of what he is leaving behind him. At every crossing he will settle his course, so to speak, and look out for dangers from every point of the compass. After very few weeks of this careful self regulation he will develop the "sense of traffic." Without knowing it he will see and hear and realize all that moves about him. He will automatically avoid collision, and it will be as impossible for him to take a step at the wrong time as it was formerly difficult for him to take it at the right one. He will at the same time preserve his person and lighten the labors of the policeman. Street accidents occur to those who have no "sense of traffic."—London Lancet.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided by keeping their digestions in good condftion with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." Sold at all drug stores and guaranteed, at 50c a bottle.

The Tools He Lacked.

"Why don't you go to work?" said a charitable woman to a tramp before whom she had placed a nicely cooked meal.

"I would," replied the vagrant, "if I had the tools."

"What sort of tools do you want?" asked the hostess.

"A knife and fork," said the tramp.—Tit-Bits.

Four White Fetlocks.

In France in former times a horse that possessed four white stockings had the privilege of being free from toll. There is a passage in one of the works of Frederick Mistral, the famous poet of Provence, to the following effect: "By the rule of the road there was an old custom which was respected by all, that the carter whose leader had four white stockings, whether going uphill or downhill, had the right not to leave the road—that is, the narrow paved part when the rest was in a bad state—and thus arose the proverb, 'Who has four white feet can pass everywhere.'"

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollum & Co.
